RAW COCO BURST

The Pure and Refreshing Coconut Water Drink

If you're searching for a refreshing and healthy drink that is packed with essential nutrients, look no further than RAW coco burst, the latest addition to the London Juice Company family. Our team has carefully crafted this drink to provide you with an unparalleled level of taste, texture, and health benefits. Made with 100% pure coconut water, RAW coco burst is available in two options: 100% coconut water or 100% coconut water pulp.

At London Juice Company, we believe that only the finest ingredients should go into our products, and RAW coco burst is no exception. We source our coconuts from the best locations across the globe, ensuring they are of the highest quality and harvested at the peak of ripeness. This guarantees that the coconuts we use in RAW coco burst are bursting with flavor and nutrients.

Coconut water has become increasingly popular in recent years, and it's easy to see why. Not only is it deliciously refreshing, but it's also packed with essential nutrients that your body needs to function at its best. RAW coco burst is a great source of electrolytes, which are minerals that help regulate your body's fluid levels.

Electrolytes are essential for maintaining healthy blood pressure, heart function, and muscle contractions. They are also important for preventing dehydration, which can lead to fatigue, headaches, and other health problems.

In addition to electrolytes, coconut water is rich in other essential nutrients such as potassium, magnesium, and calcium. Potassium is an important mineral that is involved in many bodily functions, including muscle contractions, nerve signals, and fluid balance. Magnesium is important for healthy bones, muscles, and nerves, while calcium is essential for strong bones and teeth.

And now, with the addition of real coconut pulp, you can experience even more of the natural flavor and texture of coconut. The coconut pieces add a delicious and satisfying chewiness to the drink, making it a more substantial and satisfying option. RAW Coco Burst comes in four different can sizes - 180 ml, 250 ml, 330 ml, and 500 ml - so you can choose the perfect size for any occasion. The small 180 ml cans are perfect for on-the-go hydration, while the larger 500 ml cans are great for sharing with friends and family. The 250 ml and 330 ml cans are a great size for those who want a little extra hydration without drinking too much. Also available in a 290 ml glass bottle for a premium experience.

At London Juice Company, we are committed to sustainability and environmental responsibility. That's why we use recyclable cans for RAW coco burst. We believe that every little bit counts when it comes to protecting our planet, and using recyclable cans is just one of the ways we're doing our part.

In conclusion, RAW coco burst is the perfect drink for anyone who wants to stay healthy and hydrated. With its pure, natural taste and essential nutrients, it's a great choice for any time of day. Whether you're heading to the gym, enjoying a day out with friends, or simply need a refreshing drink to quench your thirst, RAW coco burst is the perfect choice. So why wait? Try RAW coco burst today and experience the refreshing taste of pure coconut water with real coconut pieces.
